

Assignment 2

Azmani Sultana

Id: 22201949

Sec: 06

Ans no 1

Student

<u>Id</u>	firstname	lastname
-----------	-----------	----------

S.telephone

<u>Id</u>	<u>telephone</u>
-----------	------------------

Course

<u>Course-code</u>	title	L-Id
--------------------	-------	------

Project

<u>course-code</u>	<u>projNo</u>	title	L-Id
--------------------	---------------	-------	------

is done by

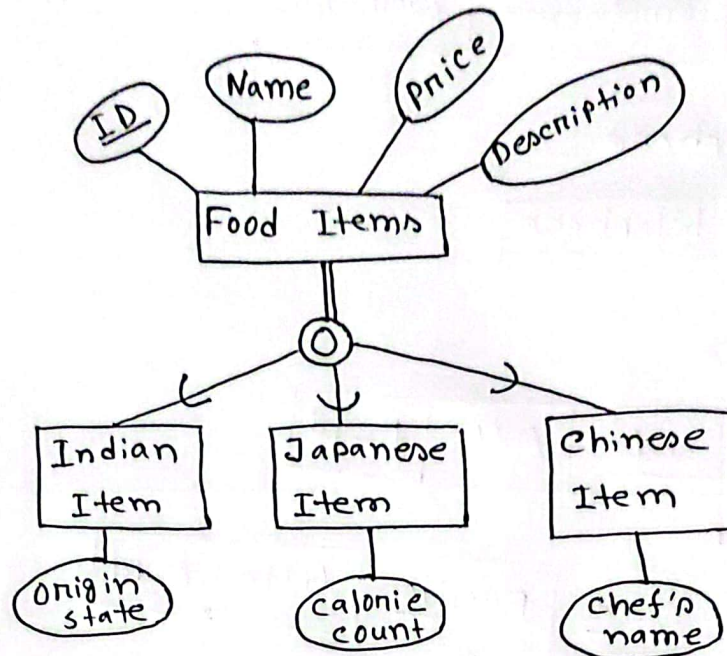

<u>course-code</u>	<u>projNo</u>	<u>SId</u>	score
--------------------	---------------	------------	-------

Lecturer

<u>id</u>	speciality
-----------	------------

Ans no 2

(A)

(B)

8A:

8B:

Indian Item

<u>Id</u>	Name	Price	Description	Origin-state
-----------	------	-------	-------------	--------------

Japanese Item

<u>Id</u>	Name	Price	Description	calorie count
-----------	------	-------	-------------	---------------

Chinese Item

<u>Id</u>	Name	Price	Description	chef's name
-----------	------	-------	-------------	-------------

8C:

8C is only applicable for single relation with one type attribute. But here the food items belong to multiple subclasses which create overlapping. So in this case 8C is not possible.

8D:

Food Items

<u>Id</u>	Name	Price	Description	Origin-state	calorie count		
			chef's name	I-flag	J-flag	C-flag	

Ans no 3
